Sen. Cassis announces traffic relief for White Lake Township

LANSING – The Michigan Department of Transportation will develop an access management plan for the M-59 corridor in White Lake Township, state Sen. Nancy Cassis (R-Novi) announced today.

“This plan provides a long-term solution for White Lake Township residents and commuters who use the M-59 corridor,” Cassis said. “Meetings between MDOT, local officials, and concerned residents produced some great ideas for prudent, lasting solutions that will accommodate growth without compromising safety.”

More than 400 residents signed petitions asking for Cassis’ help in addressing what is described as a dangerous traffic situation. As a result, a series of meetings facilitated by Cassis brought together MDOT, local officials, and concerned citizens to address the problems.

The plan will address safety concerns and provide for responsible growth along the M-59 corridor in White Lake Township. It will cover such issues as traffic light placement, driveway locations, speed limits, and other traffic-flow issues.
